### Reseller Subscription for North America State/Province or National

This is intended for value-added resellers who sell licenses supplied with hardware or other services/training or as part of an overall solution.

Under this option you pay a flat monthly fee per program to have a subscription to supply our software to an unlimited number of your customers for that time period. The license that you supply to your clients is for the life of the version of software you supply them with. If we update the software, it is your choice as a reseller to charge an extra fee to your clients to upgrade to the newer version. Your ability to create licenses will not be affected by our upgrades. This does not include the Site or Enterprise class of licenses.

#### Important Conditions:

The Reseller Subscription may only be used for sales supplied in conjunction with other products or services you supply to the customer. It may only be used for customers whom you supply directly (you may not supply through other resellers). You may not simply sell software registrations on the Internet under this Reseller Subscription.

You can sell licenses to your customers for any price or on any basis (e.g. monthly fees) or even free so long as the customer is located in your territory, deals with you directly, and you charge more for other services.

#### Payment Terms:

Payments must be for a minimum of 3 months. Discounts apply for payment 6 months in advance (10%), 12 months in advance (20%) or 2 years in advance (40%).

#### Other Terms:

In all circumstances we reserve the right to maintain copyright notices on the software. Unless otherwise specifically agreed, our logo splash screen and contact details might also appear on the software.
