

PhotoStage

Slideshow Creation Software

PhotoStage brings your digital photos and video to life and lets you share your favorite memories with family and friends in an interesting and portable way.

With incredibly powerful features at your fingertips, you can set your photos to a soundtrack, record your own narrations, add captions, and more, to create memorable and dynamic slideshows.

Features

- ▶ Combine hundreds of photos and video clips
- ▶ Easily crop and rotate photos
- ▶ Adjust brightness and saturation of photos
- ▶ Add transitions for a professional touch
- ▶ Panning and zoom effects bring photos to life
- ▶ Preview effects in real time
- ▶ Add music tracks to your slideshow
- ▶ Add text captions or narrations to individual slides
- ▶ Burn presentations to DVD or save for sending via email or sharing online

Retail Position

- ▶ At a lower price than the competition

"If you're looking for a better slideshow experience, give PhotoStage a try."
